

2019 Town of Weare Report

By Southern New Hampshire Planning Commission

The Southern New Hampshire Planning Commission (SNHPC) has a wide range of services and resources available to help member communities with a variety of land use planning and transportation challenges and concerns. Each year, with the approval of appointed representatives, the Commission's skilled staff designs and carries out programs of regional significance mandated by New Hampshire and federal laws or regulations, as well as local projects which pertain more exclusively to a specific community.

Often, Community Planning Boards, Conservation Commissions, and Governing Boards request assistance from SNHPC for traffic, pedestrian, and bicycle counts, grant assistance, specific studies, mapping, and facilitation services. Technical assistance is provided in a professional and timely manner as SNHPC carries out projects of common interest and benefit to all member communities; keeps officials apprised of changes in planning and land use regulations; and in conjunction with the New Hampshire Municipal Association, offers annual training workshops for Planning Board and Zoning Board members.

In the past year, it has been the Commission's pleasure to assist the Town of Weare with conducting traffic counts, conducting culvert assessments to inform the Regional Vulnerability Assessment and working with staff and community representatives on an Age-Friendly Pilot Program entailing development of a resident survey that will inform the upcoming Master Plan Update.

The following table details services performed for the Town of Weare during the past year, and includes both hours worked specifically for the Town and for projects involving multiple municipalities. In the latter case, the total hours spent by SNHPC staff are divided equally by the number of communities, resulting in time allotment attributed to each of the communities. Examples of a regional project are the development of the New Hampshire Department of Transportation (NHDOT) Ten-Year Transportation Improvement Plan and the organization of a legislative event for NH Legislators and local officials in the SNHPC region.
