Update on 2025-2035 Ten-Year Plan

Mr. Miller reported that staff is continuing work on the biennial update of the Ten-Year Transportation Improvement Plan. All seven projects submitted by SNHPC communities for consideration are currently being evaluated by our on-call engineering firm, VHB.

As a result of the IIJA, SNHPC's regional allocation was increased proportionally to a total of \$10.56 Million for this Ten-Year Plan update. Mr. Miller noted that due to inflation, this amount will have lower spending power on a year-of-expenditure basis.

Mr. Miller then briefly reviewed the seven proposed projects:

- Bedford – NH 101 Safety Improvements from Wallace Road to the Amherst Town Line
- Bedford – Construct a Multi-use Path Adjacent to NH 101 from Wallace Road to the Amherst Town Line
- Deerfield – Convert Intersection of NH 107/Candia Road/Church Street to a Roundabout
- Londonderry – Increase Capacity on NH 28 from Symmes Dr/Vista Ridge Dr to the Intersection of NH 128
- Londonderry – Construct Phase 7 of the Londonderry Rail Trail from NH 28 to the Derry Town Line
- Manchester – I-93 Exit 8/Wellington Road Interchange Improvements
- Windham – Improve the Windham Greenway from Meetinghouse/Old Mill Road to the Westerly ROW of I-93

Mr. Miller stated the engineering review is still ongoing, and a short list of projects are due to NHDOT on November 10th. A TAC subcommittee will review the projects, and the final list is due to NHDOT on 3/31/23.

Mr. Watson noted the regional allocation limitation, and Mr. Miller advised that SNHPC is continuing to work with VHB to refine scopes for the proposed projects and consider phasing opportunities.

There was discussion about proposed Rte. 101 multi-use path to the Amherst line, and whether it stopped there. Mr. Swick confirmed Amherst/Milford does plan to have a connection.
