2020 MPO PROSPECTUS UPDATE
SOUTHERN NH PLANNING COMMISSION
WHAT IS A PROSPECTUS

SOUTHERN NEW HAMPSHIRE PLANNING COMMISSION

Merriam Webster says…

“A statement that forecasts the course or nature of something.”
Prospectus serves three important functions in the MPO transportation planning process:

1. Overview of the Federally mandated “3-C“
2. Define roles and responsibilities of agencies and entities involved in the planning process
3. Documents interagency agreements and process used for decision-making
Why Update Prospectus?

- The Prospectus last adopted nearly ten years ago.
- Prior surface transpiration federal funding authorization replaced by the FAST Act in 2016
- Long Range Transportation Plan Updated in 2016 and a 2020 update is in progress
- Francestown and Windham are now members of the planning commission, Raymond has joined Rockingham
- Changes to region’s transit providers.
- MOUs to coordinate planning efforts with CNHRPC (for the Manchester UZA) and NRPC (for the Nashua UZA).
The 2020 Prospectus Update includes public comment period and public hearing by the Metropolitan Planning Organization’s Policy Committee.
SNHPC staff are currently updating the Prospectus to reflect changes to regulations, the planning area, MPO planning products, and relationships with partnering agencies.
THANK YOU
SOUTHERN NH PLANNING COMMISSION
