Potential Future Impact

SNHPC 2020 Census Response Rates

as of April 26, 2020

Created by the Southern New Hampshire Planning Commission, 2020. Sources: City University of New York; U.S. Census Bureau.

Increased Federal Aid

President Trump has signed the \$484 billion coronavirus aid recovery and relief bill to further support small businesses, workers, health care facilities and testing for COVID-19.

Senator Jeanne Shaheen, who negotiated the small business assistance provisions in the bill, says the package helps smaller businesses that may lack a relationship with a big bank.

It includes \$75 billion in grants for health care providers and \$25 billion to ramp up coronavirus testing. New Hampshire will get at least \$17 million from this testing fund, Shaheen says.

- NHPR Staff

Unexpected Outcomes

- New business success and old business resurgence
<https://www.uschamber.com/co/start/strategy/coronavirus-successful-businesses>
- Reduction in pollution
- Improved commute times
- Many are successfully working from home
- Appreciation for teachers
- Strengthening family bonds

Creating Solutions and Moving Forward
