ENGINEERING

Does your community have any active transportation projects that are in development and need data for further justification, evaluation, and/or planning?

EDUCATION

To what degree do your residents have access to opportunities to learn about active transportation, and related improvements in your community?

ENCOURAGEMENT

Are you aware of any past programs or events in your community that encouraged people to use active transportation?

EVALUATION

How can we measure impacts or justify investments using data?

EQUITY

Does your community take adaptive cycling equipment and other mobility devices into account when designing infrastructure?

FUNDING

Do you know how to find eligible funding for your projects?
