TOWN OF BEDFORD New Hampshire

January 4, 2023

Mr. Thomas Jameson, P.E. CMAQ Program Manager
NHDOT Bureau of Planning & Community Assistance
NH Department of Transportation
7 Hazen Drive, PO Box 483
Concord, NH 03302-0483

Re: Congestion Mitigation Air Quality Program Application

Dear Mr. Jameson,

Please allow this letter to serve as the Bedford Town Council's support for the Town of Bedford's Congestion Mitigation Air Quality (CMAQ) Program Application for the construction of a sidewalk along Old Bedford Road from the Old Bedford Road/NH Route 101 intersection to Memorial Elementary School.

The Town has identified this area as a priority for sidewalks and pedestrian connections and the Town Council voted to support the application at their meeting on December 14, 2022. The local match would primarily be funded through a \$100,000 offsite improvement contribution the town received as part of a recent development on this segment of roadway and the remainder by the town. The lack of pedestrian infrastructure has been a barrier to physical activity and alternative modes of transportation in Bedford for a long time and we feel the need to prioritize this project in order to increase the sidewalk network and safe pedestrian connections to our schools and other services.

On behalf of the Bedford Town Council, thank you for your consideration of the application for CMAQ Program funds.

Sincerely,

William Carter
William Carter, Chairman
Bedford Town Council
